ASX Announcement
(ASX: ERG)

Refresh Sets Up Seventh Bottled Water Factory

Eneco Refresh Ltd (Refresh) is pleased to announce that we are setting up our 7th bottled water factory in Darwin, Northern Territory.

We have acquired the business of NT Beverages Group Pty Ltd from its Administrators, Ferrier Hodgson. This includes the bottled water business, 6,250 m² of land together with everything in the custom-built factory at East Arm and 7,000 m² of land at Acacia Hills together with its licence to draw 23 million litres of spring water per year.

The business blow moulds 340ml to 5-litre PET bottles and injection moulds 10L HDPE bottles on site. These are marketed under the brand Akuna Springs – www.akunasprings.com.au. It also produces still and sparkling spring water in 375ml and 750ml glass bottles under the brand Akuna Blue – www.akunablue.com.au. The Akuna Springs and Akuna Blue brands are trademarked in Australia, Korea, and China.

Refresh already has factories in Queensland (Brisbane and Toowoomba), New South Wales (Sydney), Victoria (Melbourne), and Western Australia (Perth and Kalgoorlie). Having a factory in Darwin will allow it to better service customers in the top end of Australia; from Cairns, Qld in the northeast to Alice Springs, NT in the south, to Broome, WA in the northwest.

Henry Heng, Refresh's Managing Director, comments "Refresh has had 6 bottled water factories since 2006. Over the years, Refresh has been building on these 6 businesses, which are all profitable. The recent investment from Eneco Japan has given us the opportunity to expand and grow our business and bring it to a new height."

The Darwin acquisition complements an already impressive portfolio of products:

- Refresh is Australia's largest producer of distilled drinking water with a capacity to produce more than 10,000 litres of distilled water per hour. This is marketed under the Refresh Pure Water brand and is sold in pack sizes ranging from 350mL to 15-litre.
- Refresh Spring Water is a premium spring water available for home and office deliveries in Brisbane and Sydney and will soon be available in Darwin.

- Oxyfresh is a super oxygenated water which uses a unique process to energise pure water through a GIE activator. The oxygen content is increased by up to 700%. Add to this Himalayan crystal salt containing 84 elements essential for good health and you have a crisp tasting, refreshing energy drink without the sugar.

The team is excited to bring on board the Akuna Springs and Akuna Blue brands into our portfolio. We look forward to continuing to work with and employing people from the Northern Territory to help us achieve the potential of the brands.
